

## ENGAGEMENT CASE STUDY

Indian based Global Oncology  
Pharmaceuticals Company  
Implements HxGN EAM Solution

### ABOUT THE CUSTOMER

Established in 2005, the global specialty pharmaceutical company stands at the forefront of the industry, offering a comprehensive range of oncology medicines in India. With commitment to quality, accessibility and innovation, the company aims to revolutionize cancer treatment options while extending their market reach across the United States, Europe, Australia, New Zealand, Japan, Canada and the Asia Pacific region.

### BUSINESS CHALLENGES

Before engaging with Godrej Infotech, customer was facing issues with their paper-based management system, hindering maintenance operations. Challenges included time-consuming and error-prone processes, lack of real-time updates, limited accessibility and visibility, data analysis difficulties, and inefficient inventory management. The goal was to digitalize their maintenance management capabilities.

### HIGHLIGHTS

**Industry:**

Pharmaceutical

**Project Location:**

India

**Engagement Since:**

2023

**Solution Snapshot:**

HxGN EAM Implementation

## BENEFITS

## BUSINESS SOLUTION

To address the manual challenges, GITL implemented HxGN EAM with Equipment, Work & Material modules. This CMMS system deployment offers comprehensive asset management, streamlined work order processes, calibration, preventive maintenance scheduling, efficient inventory management, analytics and integration capabilities.

- Asset Lifecycle Management
- Preventive Maintenance (PM) Scheduling
- Calibration Management
- Work Management
- Compliance Tracking
- Efficient Inventory Management
- Cost Optimization
- Effective Resource Allocation
- Operation Downtime Reduction
