

CASE STUDY

Customer Background

The company has grown to become the market leader in industrial vehicles (commercial vehicles and industrial machinery) in Singapore since its establishment in the 1980s. It is the exclusive distributor in Singapore of Mitsubishi Fuso Trucks & Buses, Iveco Commercial Vehicles, Fiat Professional Commercial Vans, Sunlong Coaches & Buses, Airman Compressors & Kato Hydraulic Mobile Cranes. Having recently expanded to a pre-owned division, it also offers 24*7 after-sales support in service & spares.

Business Case

The client was in need of a single solution to take care of multi-geography, multi-company, multi-language & centralized data management. Other significant requirements were:

- Automated Reports: They used excel to manually prepare management reporting
- Accurate Inventory Count: They used paper copy to do MIS of material transfer between different warehouses
- Business Intelligence: They collect data from a variety of different sources, making it difficult and time consuming to derive actionable insights from the data

Highlights

Industry: Distribution

Project Location: Singapore

Engagement Since: 2017

Solution Snapshot:

- Cost effectiveness
- Easy-to-use user interface (UI)
- Use of Microsoft recommended technology framework
- Integration with Maximo & HRIQ
- Easy & precise inventory monitoring

Leading Commercial Vehicle Distributor in Singapore Implements Microsoft Dynamics AX

Business Solution

Factors for selecting GITL for this implementation were:

- Specific competencies and capabilities – technical and domain skills
- Company credentials – stability & track record
- Cost effectiveness
- Ability to integrate all business processes
- Focus on a standardized, easy-to-use user interface (UI) across products

The company was focused on improving user productivity. Implementation of Microsoft Dynamic AX allowed them to:

- Automate or standardize repeatable manual processes, & enabled users to redirect the time saved to high-value tasks
- All transactions and inventory tracking are easy and accurate because of new system
- Access to real-time reports that enabled quick & easy decision making

Modules implemented are General Ledger, Accounts Payable & Receivable, Budgeting & Fixed Assets, Cash & Bank Management, Sales & Marketing, Procurement & Sourcing, and Inventory & Warehouse Management.

Challenges

The challenges faced by the GITL team during this implementation were:

- Change management
- User involvement in the original stage was much lower

Benefits

- Anytime, anywhere access through RDP (remote desktop protocol)
- Considerable reduction in duplicity of work
- Implementation of the system helped in increasing inter-departmental synergy
- Users started paperless work because of new system
- Through access control users are limited to their area only while accessing the system which is very important from security point of view
